## **INDEPENDENT AUDITORS' REPORT**

To the Board of Directors of  
West Travis County Public Utility Agency:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and each major fund of West Travis County Public Utility Agency (the "PUA"), as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the PUA's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC

*"A Registered Investment Advisor"*

*This firm is not a CPA firm*

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the PUA as of September 30, 2019, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in net pension liability (asset) and related ratios, the schedule of agency contributions, and the notes to required supplementary information on pages 5 through 10, 35, 36, and 37 through 38, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the PUA's basic financial statements. The supplemental information and other supplemental information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other supplemental information listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

## **Management's Discussion and Analysis For the Year Ended September 30, 2019**

As management of the West Travis County Public Utility Agency (the "PUA"), we provide readers of the PUA's financial statements this narrative overview and analysis of the financial activities of the PUA for the year ended September 30, 2019. We encourage readers to consider the information presented here in conjunction with the PUA's financial statements that follow.

For purposes of Governmental Accounting Standards Board ("GASB") Statement No. 34, the PUA is considered a special purpose government. This allows the PUA to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Total Governmental Funds" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

### **Financial Highlights**

- The assets and deferred outflows of resources of the PUA at September 30, 2019 were approximately \$275.5 million while its liabilities and deferred inflows of resources were approximately \$229.6 million. Assets and deferred outflows of resources of the PUA exceeded its liabilities and deferred inflows of resources at September 30, 2019 by approximately \$45.8 million.
- Revenues for the year ended September 30, 2019 totaled approximately \$47.2 million while expenses totaled approximately \$26.4 million, resulting in an increase in net position of approximately \$20.7 million for the year ended September 30, 2019.

### **Overview of the Basic Financial Statements**

The PUA's reporting is comprised of two parts:

- *Management's Discussion and Analysis*
- *Basic Financial Statements*
  - *Statement of Net Position and Governmental Funds Balance Sheet*
  - *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*
  - *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund*
  - *Notes to Basic Financial Statements*

Other supplementary information is also included.

The *Basic Financial Statements* are designed to provide readers with an overview of the PUA's finances, in a manner similar to the private sector business.

The *Statement of Net Position and Governmental Funds Balance Sheet* presents information on all the PUA's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. The statement of net position and governmental funds balance sheet can be found on page 11 of the report which includes a column (titled "Total Governmental Funds") that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the PUA's net position will indicate financial health.

The *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances* represents information showing how the PUA's net position changed during the most recent fiscal year which includes a column (titled "Total Governmental Funds") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund* presents a comparison statement between the PUA's adopted budget to its actual results.

The *Notes to Basic Financial Statements* provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*.

Required supplementary information related to the PUA's participation in the Texas County and District Retirement System pension plan, schedules required by the Water Agency Accounting Manual, and other schedules are presented immediately following the *Notes to Basic Financial Statements*.

## **Financial Analysis**

The *Statement of Net Position and Governmental Funds Balance Sheet* as noted earlier shows net position which may serve over time as a useful indicator of the PUA's financial position. In the case of the PUA, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by approximately \$45.8 million at the close of the most recent year ending on September 30, 2019.

The PUA had total cash, cash equivalents, and temporary investments of approximately \$114.0 million at September 30, 2019. Of this, approximately \$17.6 million is specifically set aside for paying debt. Long-term debt related to the outstanding Series 2013 Revenue and Refunding Bonds, Series 2015 Revenue Bonds, Series 2017 Revenue Refunding Bonds, and Series 2019 Revenue Bonds totaled approximately \$221.9 million at September 30, 2019; future water and wastewater revenues collected by the PUA will be used to pay this outstanding long-term debt.

Approximately \$28.5 million and approximately \$43.1 million of cash, cash equivalents, and temporary investments at September 30, 2019 are in the Capital Projects and Impact Fee Funds, respectively. This money is segregated for the construction of new capital projects.

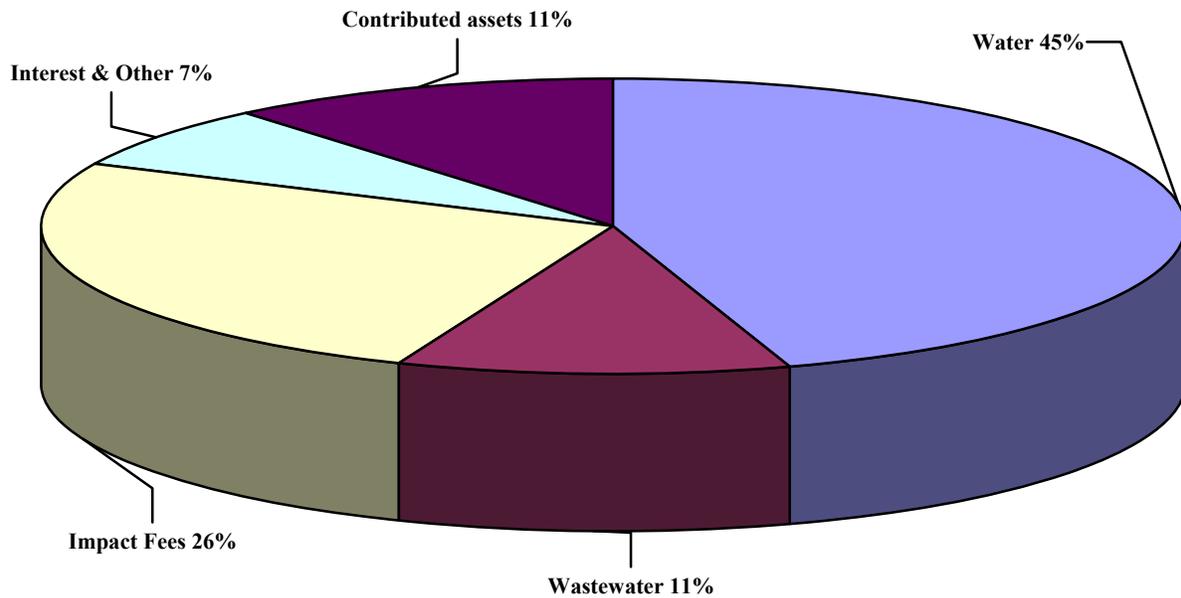

As part of the bond agreement for the previously issued Series 2013 issuance, the PUA agreed to maintain separate and special accounts known as the Rate Stabilization Fund and the Facilities Fund. The Rate Stabilization Fund is an account which holds funds that may be used at the discretion of the PUA for any lawful purpose, including capital additions and improvements to the PUA’s water and wastewater system and to enable the PUA to manage rates and charges provided, however, that such funds shall be used in the following order of priority: 1) first for funding of operating and maintenance reserves and payment of principal and interest on debt obligations, 2) redemption or defeasance of outstanding obligations, if economically advantageous, and 3) transfer to the Facilities Fund for payment of costs of any capital additions and improvements. The Facilities Fund is an account which holds transfers from the General Fund for times coverage for payment of capital additions and improvements, including reimbursement of such costs. As funds transferred to either of these accounts are for specific purposes pursuant to approval by formal action by the Board of Directors, they are considered committed fund balance in the General Fund and are shown as such on the Governmental Funds Balance Sheet.

### Statement of Net Position

	Governmental Activities	
	2019	2018
Current and other assets	\$ 120,678,187	\$ 103,390,700
Capital and non-current assets	126,930,764	123,306,014
Total assets	\$ 247,608,951	\$ 226,696,714
Deferred outflows of resources	\$ 27,855,495	\$ 32,513,030
Current liabilities	\$ 7,337,324	\$ 7,929,675
Long-term liabilities	222,243,593	226,149,038
Total liabilities	\$ 229,580,917	\$ 234,078,713
Deferred inflows of resources	\$ 40,072	\$ 624
Net investment in capital assets	\$ (56,958,210)	\$ (70,066,589)
Restricted	16,621,096	15,888,991
Unrestricted	86,180,571	79,308,005
Total net position	\$ 45,843,457	\$ 25,130,407

The PUA’s total assets were approximately \$247.6 million and \$226.7 million as of September 30, 2019 and 2018, respectively. At September 30, 2019, the PUA had deferred outflows of resources totaling approximately \$27.9 million mainly related to deferred charges on bond refundings and liabilities exceeding assets at the time of purchase of the LCRA West Travis County water and wastewater system (formerly known as “goodwill”). Like goodwill, these deferred outflows of resources are amortized systematically over a period of forty years; amortization expense for the year ending September 30, 2019 was \$360,098. The PUA had outstanding liabilities of approximately \$229.6 million and \$234.1 million as of September 30, 2019 and 2018, respectively, of which approximately \$221.9 million and \$194.9 million represents bonds payable as of September 30, 2019 and 2018, respectively, and approximately \$14.7 million represents liabilities owed to the LCRA as of September 30, 2018.

## Sources of Revenue

## Statement of Activities

	Governmental Activities	
	2019	2018
Water and wastewater	\$ 26,576,550	\$ 27,894,945
Impact fees	12,039,356	13,595,918
Contributions	5,319,600	-
Interest and other	3,227,223	383,828
<b>Total revenues</b>	<b>47,162,729</b>	<b>41,874,691</b>
Water and wastewater	5,160,292	5,680,860

Change in net position	20,713,050	16,971,153
Beginning net position	25,130,407	8,159,254
<b>Ending net position</b>	<b>\$ 45,843,457</b>	<b>\$ 25,130,407</b>

Operating revenues were approximately \$47.2 million and \$41.9 million for the years ended September 30, 2019 and 2018, respectively. Water and wastewater service provided approximately \$26.6 million and \$27.9 million in revenues for the years ended September 30, 2019 and 2018, respectively. Impact fees generated approximately \$12.0 million and \$13.6 million in revenues for the years ended September 30, 2019 and 2018, respectively. Total expenses were approximately \$26.4 million and \$24.9 million for the years ended September 30, 2019 and 2018, respectively. Net position was approximately \$45.8 million and approximately \$25.1 million at September 30, 2019 and 2018, respectively.

## Analysis of Governmental Funds

	2019	2018
Cash and cash equivalents	\$ 30,793,120	\$ 19,771,071
Temporary investments	83,218,462	78,810,098
Receivables	6,070,759	4,781,138
Interfund receivable	3,451,473	4,254,828
Deposits	16,087	28,393
Total assets	\$ 123,549,901	\$ 107,645,528
Accounts payable	\$ 1,113,649	\$ 1,625,268
Refundable deposits	676,005	586,775
Other liabilities	532,190	360,017
Interfund payable	3,451,473	4,254,828
Due to developers for connection fee credit	-	508,665
Total liabilities	5,773,317	7,335,553
Restricted fund balance	43,513,518	37,625,279
Committed fund balance	10,541,675	8,517,161
Assigned fund balance	44,052,162	39,206,346
Unassigned fund balance	19,669,229	14,961,189
Total fund balances	117,776,584	100,309,975
Total liabilities and fund balances	\$ 123,549,901	\$ 107,645,528

The *General Fund* pays for daily operating expenditures. For the year ended September 30, 2019, the PUA's budget projected an ending operating fund balance of approximately \$27.3 million. The General Fund reflected positive change in fund balance of approximately \$6.7 million, a positive difference of approximately \$2.9 million compared to the budget. This positive difference is primarily due to less capital outlay expenditures than budgeted.

The *Debt Service Fund* had an ending restricted fund balance of approximately \$17.7 million at September 30, 2019. During the year, the PUA paid approximately \$23.3 million in principal and interest due on the outstanding Series 2013, Series 2015, 2017, 2019 bonds and LCRA debt from the Debt Service Fund and General Fund. More detailed information about the PUA's debt is presented in the *Notes to Basic Financial Statements*.

The *Capital Projects Fund* purchases primarily the PUA's infrastructure.

The *Impact Fee Fund* accounts for charges on new development within the PUA to help fund and pay for the construction or needed expansion of capital improvements.

## Capital Assets

	2019	2018
Land	\$ 6,097,409	\$ 6,097,409
Construction in progress	2,644,199	6,062,539
Water and wastewater facilities	167,160,157	152,409,603
Vehicles	967,866	951,306
Leasehold improvements	187,052	187,052
Subtotal	177,056,683	165,707,909
Accumulated depreciation and amortization	(50,206,976)	(43,100,702)
Total	<u>\$ 126,849,707</u>	<u>\$ 122,607,207</u>

More detailed information about the PUA's capital assets is presented in the *Notes to Basic Financial Statements*.

## Long-Term Debt Activity

	2019	2018
Bonds payable	\$ 207,060,000	\$ 194,935,000
Premiums on bonds	14,913,862	14,212,672
Discount on bonds	(59,603)	(89,404)
LCRA debt obligation	-	14,739,537
Total	<u>\$ 221,914,259</u>	<u>\$ 223,797,805</u>

The PUA owes approximately \$207.1 million to bond holders from the Series 2013, Series 2015, Series 2017 bonds issued in previous years and from the Series 2019 bonds issued in the current year.

More detailed information about the PUA's long-term debt is presented in the *Notes to Basic Financial Statements*.

## Currently Known Facts, Decisions, or Conditions

The currently adopted fiscal year 2020 budget projects a General Fund balance increase of approximately \$3.4 million. Budgeted revenues and other financing sources total approximately \$25.3 million, while expenditures and other financing uses are expected to be approximately \$21.9 million, which includes approximately \$8.7 million reserved to fund future debt service obligations.

## Requests for Information

This financial report is designed to provide a general overview of the PUA's finances and to demonstrate the PUA's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the PUA at 13215 Bee Cave Pkwy, Building B, Suite 110, Bee Cave, Texas 78738.

# WEST TRAVIS COUNTY PUBLIC UTILITY AGENCY

## NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED SEPTEMBER 30, 2019

---

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

West Travis County Public Utility Agency (the “PUA”) was created, organized and established on December 21, 2011, pursuant to the provisions of Chapter 572 of the Texas Local Government Code. The PUA is a publicly owned water and wastewater utility, serving western Travis and northern Hays counties, which were formerly serviced by the Lower Colorado River Authority (the “LCRA”). Pursuant to a purchase agreement dated January 17, 2012 entered into with the LCRA (the “Purchase Agreement”), the PUA purchased the LCRA’s West Travis County water and wastewater system. The purchase became effective and operations began on March 19, 2012.

The reporting entity of the PUA encompasses those activities and functions over which the PUA’s appointed officials exercise significant oversight or control. As of September 30, 2019, the PUA was governed by a five member Board of Directors (the “Board”) which were appointed from each of the three entities that formed the PUA: City of Bee Cave, Hays County, and Lake Pointe Municipal Utility District (the “Public Entities”). The PUA is not included in any other governmental “reporting entity” as defined by the Governmental Accounting Standards Board (“GASB”) since Board members are appointed by the Public Entities and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units included in the PUA’s reporting entity.

#### **Government-Wide and Fund Financial Statements**

For purposes of GASB Statement No. 34, the PUA is considered a special purpose government. This allows the PUA to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the “Total Governmental Funds” column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the statement of net position and the statement of activities.

The government-wide financial statements report information on all of the activities of the PUA. The effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the expenses are offset by program revenues. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the PUA. Other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

## **Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Amounts reported as program revenues include charges to customers or applicants for goods, services, or privileges provided. Internally dedicated resources are reported as general revenues rather than as program revenues. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the PUA considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Major revenue sources considered susceptible to accrual include interest income.

The PUA reports the following major governmental funds:

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balance is considered resources available for current operations.

The Debt Service Fund includes revenues collected to retire bond principal and to pay interest due.

The Capital Projects Fund is used to account for financial resources restricted for authorized construction and other capital asset acquisitions.

The Impact Fee Fund includes charges on new development within the PUA to help fund and pay for the construction or needed expansion of capital improvements.

## **Budgets and Budgetary Accounting**

Formal budgetary integration is employed as a management control device for the General Fund. The budget is proposed by the PUA Manager for the fiscal year commencing the following October 1, and is adopted on the modified accrual basis, which is consistent with generally accepted accounting principles. Under GASB Statement No. 34, budgetary comparison information is required for the General Fund and each major special revenue fund (the Impact Fee Fund); however, the PUA is not legally required to adopt a budget for the Impact Fee Fund. Therefore, budget comparison information for the Impact Fee Fund is not included in the PUA's financial statements. In addition, formal budgetary integration is not employed for the Debt Service Fund or Capital Projects Fund. For the year ended September 30, 2019, expenditures for the General Fund were below budget by approximately \$6,985,000.

## **Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balances**

Cash and cash equivalents - Cash and cash equivalents included cash on deposit as well as investments with maturities of three months or less.

Temporary Investments - The PUA is entitled to invest any and all of its funds in certificates of deposit, direct debt securities of the United States of America or the State of Texas, certain Federal agency securities and other types of municipal bonds, fully collateralized repurchase agreements, commercial paper, corporate bonds, money market and other mutual funds, and local government investment pools. The PUA's investment policies and types of investments are governed by Section 2256 of the Government Code ("Public Funds Investment Act"). The PUA's management believes that it complied with the requirements of the Public Funds Investment Act and the PUA's investment policies. The PUA accrues interest on temporary investments based on the terms and effective interest rates of the specific investments.

Accounts Receivable - The PUA provides for uncollectible accounts receivable using the allowance method of accounting for bad debts. Under this method of accounting, a provision for uncollectible accounts is charged to earnings. The allowance account is increased or decreased based on past collection history and management's evaluation of accounts receivable. All amounts considered uncollectible are charged against the allowance account, and recoveries of previously charged off accounts are added to the allowance. As of September 30, 2019, there was no allowance for uncollectible accounts.

Capital Assets - Capital assets, which include land, construction in progress, vehicles, leasehold improvements, water production, transmission, and distribution facilities and wastewater collection and treatment facilities (purchased, constructed or donated) are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the PUA as assets with an initial, individual cost of at least \$10,000. Such assets are recorded at historical cost if purchased or estimated acquisition value at the date of donation if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized.

Water and wastewater facilities are depreciated using the straight-line method over estimated useful lives ranging from one to sixty years. Vehicles are depreciated using the straight-line method over estimated useful lives ranging from five to fifteen years. Leasehold improvements are amortized over the term of the lease agreement.

Consideration in Excess of Value of Assets Acquired - The PUA complies with GASB Statement No. 69, *Government Combinations and Disposals of Government Operations*, which provides guidance for accounting and financial reporting of government combinations, including mergers, acquisitions, and transfers of operations, and disposals of government operations, and requires, among other things, disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and financial effects of those transactions. In a government acquisition in which the consideration provided exceeds the net position acquired, the statement requires the excess (formerly known as "goodwill") be recognized as a deferred outflow of resources and those deferred outflows should be attributed to future periods in a systematic and rational manner, based on professional judgment, considering the relevant circumstances at the time of acquisition.

Consideration in excess of value of assets acquired, which resulted from total liabilities assumed exceeding total assets acquired at the time of purchase of the LCRA West Travis County water and wastewater system in fiscal year 2012, is stated at cost and is being amortized systematically over a period of forty years. As of September 30, 2019, consideration in excess of value of assets acquired, net totaled \$11,523,127. For the year ending September 30, 2019, amortization expense was \$360,098. During the year ending September 30, 2019, the liability for the LCRA debt obligation was paid in full and included \$3,711,798 held in reserve by the LCRA that was applied to the final installment debt payment. This reserve amount was initially included in the balance of the consideration in excess of value of assets acquired. Due to this, the consideration in excess of value of assets balance was reduced by the \$3,711,798 reserve amount during the year ending September 30, 2019.

Long-Term Debt - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts, as well as bond insurance costs, are deferred over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond insurance costs are reported as assets and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, including bond insurance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions - The fiduciary net position of the Texas County and District Retirement System (“TCDRS”) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TCERS’s fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows and Inflows of Resources - The PUA complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the PUA’s net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the PUA’s acquisition of net position applicable to a future reporting period.

The PUA complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. See Note 6 and Note 10 for additional information on deferred outflows and inflows of resources.

Fund Balance - The PUA's fund balance classifications are presented in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 9 for additional information on those fund balance classifications.

Fair Value Measurements - The PUA complies with GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost)
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Use of Estimates - The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

## Recently Issued Accounting Pronouncements

In June 2017, the GASB issued GASB Statement No. 87, *Leases*, effective for fiscal years beginning after December 15, 2019. The objective of GASB Statement No. 87 is to improve accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. Management is evaluating the effects that the full implementation of GASB Statement No. 87 will have on its financial statements for the year ended September 30, 2021.

In June 2018, the GASB issued GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective for fiscal years beginning after December 15, 2019. The objective of GASB Statement No. 89 is to enhance the relevance and comparability of information about capital assets and to simplify accounting for interest cost incurred before the end of a construction period. Under GASB Statement No. 89, interest costs will no longer be capitalized as part of the asset but will be shown as an expenditure in the fund financial statements and as an expense in the government-wide financial statements. Management is evaluating the effects that the full implementation of GASB Statement No. 89 will have on its financial statements for the year ended September 30, 2021.

## 2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Amounts reported for governmental activities in the statement of net position are different because:

Governmental funds total fund balance	\$ 117,776,584
Prepaid bond insurance costs are recorded as expenditures in the funds, but are amortized over the life of the related bonds in the statement of net position.	579,759
Capital assets, consideration in excess of value of assets acquired, and other noncurrent assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	
Capital assets, net of accumulated depreciation	126,849,707
Consideration in excess of value of assets acquired, net of accumulated amortization	11,523,127
Net pension asset is not receivable in the current period and, therefore, is not reported in the funds.	81,057
The following liabilities and deferred outflows and inflows of resources are not due and payable in the current period and, therefore, are not reported in the funds:	
Pension contributions after measurement date	156,597
Deferred outflows related to pension asset	196,796
Deferred inflows related to pension asset	(40,072)
Bonds payable, including premiums and discounts	(221,914,259)
Less: Deferred charges on bond refundings	15,978,975
Due to developers for utility facility acquisition	(4,254,334)
Bond interest payable	<u>(1,090,480)</u>
Total net position	<u>\$ 45,843,457</u>

Amounts reported for governmental activities in the statement of activities are different because:

Excess of revenues and other financing sources over expenditures and other financing uses	\$ 17,466,609
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation and amortization expense.	
Capital outlay	5,884,603
Contributed assets	5,319,600
Depreciation expense	(7,139,524)
Amortization expense	(360,098)
Bond proceeds and other debt provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Issuance of bonds, including premium	(16,881,556)
Bond principal payments	3,470,000
Payments on LCRA debt obligation	11,027,739
Payment to developers for utility facility acquisition	1,764,619
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Pension contributions made before the measurement date	62,871
Pension contributions made after the measurement date	156,597
Adjustments for ending deferred outflows and inflows related to net pension asset	(213,479)
Change in bond interest payable	(68,057)
Change in LCRA interest payable	336,628
Amortization of bond discount	(29,801)
Amortization of deferred charges on bond refunding	(608,929)
Bond insurance premium	45,181
Amortization of bond insurance costs	(105,319)
Amortization of bond premium	585,366
Change in net position	<u>\$ 20,713,050</u>

### 3. CASH, CASH EQUIVALENTS AND TEMPORARY INVESTMENTS

The PUA's deposits are required to be secured in the manner provided by law for the security of the funds. At September 30, 2019, such deposits were entirely covered by Federal Deposit Insurance Corporation ("FDIC") insurance or secured by collateral pledged by the depository.

The Public Funds Investment Act authorizes the PUA to invest in funds under a written investment policy. The PUA's investment policy is approved annually by the Board. The primary objectives of the PUA's investment strategy, in order of priority, are safety, liquidity, and yield.

Investments held at September 30, 2019 consisted of the following:

Type	Fair Value	Weighted Average Maturity (Days)	Standard & Poor's Rating
U.S. Government Notes	\$ 34,892,163	1,047	AA+
Corporate Bonds	10,941,210	397	AA - AAA
Municipal Bonds	18,757,803	903	A - AAA
U.S. Agencies:			
Federal Farm Credit Bank	986,713	52	AA+
Federal Home Loan Mortgage	4,594,568	201	AA+
Federal National Mortgage Assn.	1,728,059	57	AA+
Federal Home Loan Bank	11,317,946	523	AA+
Total	<u>\$ 83,218,462</u>		

The PUA invests excess funds in U.S. government notes, corporate bonds, municipal bonds, and U.S. agency securities and are valued using Level 1 inputs that are based on market data obtained from independent sources. The investments are reported by the PUA at fair value in accordance with GASB Statement No. 72.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized agencies are designed to give an indication of credit risk. At September 30, 2019, investments had ratings from Standard & Poor's in compliance with the PUA's investment policy.

Custodial Credit Risk - Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the PUA's name. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the PUA, and are held by either the counterparty or the counterparty's trust department or agent but not in the PUA's name. At September 30, 2019, the PUA was not exposed to custodial credit risk.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributable to the magnitude of investments in a single issuer. Information regarding investments in any one issuer that represents five percent or more of the PUA's total investments must be disclosed under GASB Statement No. 40, excluding investments issued or explicitly guaranteed by the U.S. government. As of September 30, 2019, the PUA's investments which require disclosure are as follows:

Issuer	Fair Value	Percentage of Portfolio
Federal Home Loan Mortgage	\$ 4,594,568	6%
Federal Home Loan Bank	11,317,946	14%

Interest Rate Risk - As a means of minimizing risk of loss due to interest rate fluctuations, the PUA's investment policy requires that individual investments have a maximum allowable maturity of five years, unless otherwise stated in the investment policy. The PUA's investments had weighted-average maturities at September 30, 2019 in compliance with the PUA's investment policy. At September 30, 2019, the PUA was not exposed to significant interest rate risk.

#### 4. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds." The composition of interfund balances as of September 30, 2019 is as follows:

Receivable Fund	Payable Fund	Amount
Impact Fee Fund	General Fund	\$ 816,135
General Fund	Capital Projects Fund	2,635,338
Total		<u>\$ 3,451,473</u>

During the year, the General Fund and the Impact Fee Fund transferred \$9,325,000 and \$2,324,877, respectively, to the Debt Service Fund to fund principal and interest payments due on the outstanding Series 2013, 2015, 2017, and 2019 bonds. The Impact Fee Fund transferred \$6,007,263 to the Capital Projects Fund to fund the impact fee eligible portion of capital improvement projects.

## 5. CAPITAL ASSETS

Capital assets activity for the year ended September 30, 2019 was as follows:

	Balance September 30, 2018	Additions	Retirements and Transfers	Balance September 30, 2019
Capital assets not being depreciated:				
Land	\$ 6,097,409	-	-	6,097,409
Construction in progress	6,062,539	5,525,899	(8,944,239)	2,644,199
Total capital assets not being depreciated	<u>12,159,948</u>	<u>5,525,899</u>	<u>(8,944,239)</u>	<u>8,741,608</u>
Capital assets being depreciated/amortized:

Less accumulated depreciation and amortization for:				
Water production, transmission, and distribution facilities and wastewater collection and treatment facilities	(42,623,182)	(6,970,842)	-	(49,594,024)
Vehicles	(456,737)	(147,899)	33,250	(571,386)
Leasehold improvements	(20,783)	(20,783)	-	(41,566)
Total accumulated depreciation and amortization	<u>(43,100,702)</u>	<u>(7,139,524)</u>	<u>33,250</u>	<u>(50,206,976)</u>
Total capital assets being depreciated/amortized, net	<u>110,447,259</u>	<u>(1,283,399)</u>	<u>8,944,239</u>	<u>118,108,099</u>
Capital assets, net	<u>\$ 122,607,207</u>	<u>4,242,500</u>	<u>-</u>	<u>126,849,707</u>

## 6. DEFERRED CHARGES ON BOND REFUNDINGS

The following is a summary of changes in deferred charges on bond refundings for the year ended September 30, 2019:

	Beginning Balance	Additions	Retirements	Ending Balance
Deferred charges on bond refundings	\$ 16,587,904	-	(608,929)	15,978,975

## 7. LONG-TERM DEBT

The following is a summary of changes in long-term debt for the year ended September 30, 2019:

	Balance September 30, 2018	Additions	Retirements	Balance September 30, 2019
Series 2013 bonds	\$ 9,130,000	-	(2,950,000)	6,180,000
Series 2015 bonds	36,600,000	-	(330,000)	36,270,000
Series 2017 bonds	149,205,000	-	(190,000)	149,015,000
Series 2019 bonds	-	15,595,000	-	15,595,000
Premiums on bonds	14,212,672	1,286,556	(585,366)	14,913,862
Discounts on bonds	(89,404)	-	29,801	(59,603)
LCRA debt obligation	14,739,537	-	(14,739,537)	-
Total	\$ 223,797,805	16,881,556	(18,765,102)	221,914,259

At September 30, 2019, long-term debt was comprised of the following:

### Revenue and Refunding Bonds:

\$6,180,000 - Series 2013 Revenue and Refunding Bonds payable serially through the year 2021 at interest rates which range from 2.00% to 5.50%.

\$36,270,000 - Series 2015 Revenue Bonds payable serially through the year 2046 at interest rates which range from 2.00% to 5.00%.

\$149,015,000 - Series 2017 Revenue Refunding Bonds payable serially through the year 2045 at interest rates which range from 2.00% to 5.00%.

\$15,595,000 - Series 2019 Revenue Bonds payable serially through the year 2049 at interest rates which range from 3.00% to 5.00%.

On April 24, 2019, the PUA issued \$15,595,000 Series 2019 Revenue Bonds to make the final installment purchase payment for the LCRA debt obligation, construct improvements, and pay issuance costs related to the bonds. The net proceeds of \$16,425,944 was deposited into the District's Facilities Fund and Capital Projects Fund to fund the final installment purchase payment for the LCRA debt obligation and fund future capital improvements.

Debt service requirements to maturity for PUA's bonds are summarized as follows:

Fiscal Year	Principal	Interest	Total Requirement
2020	\$ 3,925,000	8,723,838	12,648,838
2021	4,130,000	8,594,963	12,724,963
2022	4,410,000	8,398,363	12,808,363
2023	4,695,000	8,190,013	12,885,013
2024	5,015,000	7,958,413	12,973,413
2025-2029	29,575,000	35,952,915	65,527,915
2030-2034	37,420,000	28,418,162	65,838,162
2035-2039	45,615,000	20,256,131	65,871,131
2040-2044	55,505,000	10,391,650	65,896,650
2045-2049	16,770,000	1,175,150	17,945,150
Total	<u>\$ 207,060,000</u>	<u>138,059,598</u>	<u>345,119,598</u>

The PUA defeased outstanding general obligation bonds through the Series 2017 Revenue Refunding Bonds by placing the proceeds of the new bonds and additional payments from the PUA in an irrevocable trust to provide for the future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not included in the PUA's financial statements. At September 30, 2019, outstanding bonds of \$145,760,000 are considered defeased.

At September 30, 2019, revenue bonds of \$218,215,000 and refunding bonds of \$196,890,000 were authorized by the PUA and all were issued.

LCRA debt obligation:

Pursuant to the Purchase Agreement with the LCRA, the PUA assumed the outstanding debt service obligations of the LCRA related to the development and construction of the West Travis County water and wastewater system. The following bonds were issued by the LCRA and outstanding as of the acquisition date (March 19, 2012). The Purchase Agreement obligates the PUA to pay the LCRA installments sufficient to permit the LCRA to defease and redeem the following outstanding debt service obligations:

\$14,609,352 - Bonds callable May 15, 2019 payable serially through the year 2039 at interest rates which range from 4.00% to 5.625%.

\$130,185 - Bonds not callable payable serially through the year 2019 at interest rates which range from 3.00% to 5.00%.

During the year ending September 30, 2019, the PUA made the final payment on the LCRA debt obligation which consisted of a payment of \$11,027,739 and \$3,711,798 held in reserve by the LCRA that was applied to the final installment debt payment. This reserve amount was initially included in the balance of the liability and was reversed through a reduction of the consideration in excess of value of assets acquired balance during the year ending September 30, 2019.

## 8. COMMITMENTS AND CONTINGENCIES

The PUA is involved in various legal proceedings which arise from time to time in the normal course of business. While the ultimate results of such matters generally cannot be predicted with certainty, management does not expect any such matters to have a material adverse effect on the financial position of the PUA or its results of operations as of September 30, 2019.

**Operating Leases** - The PUA leases office space under non-cancellable, operating lease agreements. Total rent expense for all operating leases was \$252,420 for the year ended September 30, 2019. The following is a schedule of future minimum lease payments required under these operating leases as of September 30, 2019:

2020	\$	185,352
2021		189,108
2022		192,876
2023		197,100
2024		201,228
Thereafter		<u>222,638</u>
Total	\$	<u>1,188,302</u>

**Due to Developers for Utility Facility Acquisition** - As part of the Purchase Agreement entered with the LCRA, the PUA inherited and assumed certain obligations due on utility facility development and construction agreements entered into with various developers. As part of the original agreements, costs incurred by the developers in the creation of water and wastewater utilities were to be reimbursed by the LCRA. Pursuant to the Purchase Agreement, the PUA has taken on the liabilities to these developers under the various utility facility development and construction agreements. These liabilities are based on the allowed water and wastewater facility development and construction expenses incurred by the developers and estimates are subject to change. As of September 30, 2019, the outstanding liability owed to the various developers totaled \$4,254,334 and developer commitments under utility facility development and construction agreements totaled \$4,892,908.

## 9. FUND BALANCES

For the year ended September 30, 2019, the PUA has presented fund balance classifications with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, the Board may appropriate amounts that are to be used for a specific purpose. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the PUA's General Fund.

The detail of the fund balances is included in the Governmental Funds Balance Sheet on page 11. Fund balance of the PUA may be committed for a specific purpose by formal action of the Board, the PUA's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has the authority to assign fund balance for a specific purpose. As of September 30, 2019, spending and commitments and assignments of fund balance have been executed in accordance with the PUA's GASB 54 policy. Under the policy, in circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

As part of the bond agreement for the Series 2013 issuance, the PUA agreed to maintain separate and special accounts known as the Rate Stabilization Fund and the Facilities Fund. The Rate Stabilization Fund is an account which holds funds that may be used at the discretion of the PUA for any lawful purpose, including capital additions and improvements to the PUA's water and wastewater system and to enable the PUA to manage rates and charges provided, however, that such funds shall be used in the following order of priority: 1) first for funding of operating and maintenance reserves and payment of principal and interest on debt obligations, 2) redemption or defeasance of outstanding obligations, if economically advantageous, and 3) transfer to the Facilities Account for payment of costs of any capital additions and improvements. The Facilities Fund is an account which holds transfers from the General Fund for times coverage for payment of capital additions and improvements, including reimbursement of such costs. As funds transferred to either of these accounts are for specific purposes pursuant to approval by formal action by the Board, they are considered committed fund balance in the General Fund and are shown as such on the governmental funds balance sheet on page 11.

## **10. DEFINED BENEFIT PENSION PLAN**

### **Plan Description**

The PUA provides retirement, disability, and death benefits for all of its non-temporary full-time employees through a nontraditional defined benefit pension plan administered by TCDRS. The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 781 active participating counties and districts throughout Texas. TCDRS in the aggregate issues a comprehensive annual financial report ("CAFR") on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas State statutes governing TCDRS ("TCDRS Act"). Members can retire at age 60 and above with 8 or more years of service, after 30 years of service, or when service time plus age equals 75 but must leave their accumulated contributions in the plan to receive any employer-finance benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

## Benefits Provided

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and the employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act, so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Employee membership data related to the Plan, as of the valuation date of December 31, 2018 was as follows:

Retirees and beneficiaries currently receiving benefits	-
Terminated employees entitled to but not yet receiving benefits	18
Active plan members	<u>34</u>
Total	<u><u>52</u></u>

## Contributions

The PUA has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually. The PUA contributed using the actuarially determined rate of 9.47% for 2019 as adopted by the governing body of the PUA. The employee contribution rate was 7.00%. The employee contribution rate and the employer contribution rate may be changed by the governing body of the PUA within the options available in the TCDRS Act. The required contribution and actual contributions for the year ended September 30, 2019 equaled \$219,468.

## Net Pension Asset

### Actuarial Assumptions

The PUA's net pension asset was measured as of December 31, 2018, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation Timing	Actuarially determined contribution rates are calculated as of December 31, two years prior to the end of the fiscal year in which the contributions are reported
Actuarial Cost Method	Individual Entry Age Normal
Amortization method	Level percentage of payroll, closed
Amortization period	0.0 years
Asset Valuation Method	5-year smoothed market
Inflation	2.75%
Salary Increases	Varies by age and service. 4.9% average over career including inflation
Investment Rate of Return	8.10%
Cost-of-Living Adjustments	Cost-of-Living Adjustments for the PUA are not considered to be automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB 68 calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.
Retirement Age	Between ages 40 and 74 with various rates of service retirement by gender: low of 4.5% for age 40-44 to high of 25.0% for age 65-66 for males and females
Turnover	New employees are assumed to replace any terminated members and have similar entry ages.
Mortality:	
Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Table for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service retirees, beneficiaries and non-depositing members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

The actuarial assumptions that determined the total pension liability as of December 31, 2018 were based on the results of an actuarial experience study for the period January 1, 2013 through December 31, 2016, except where required to be different by GASB 68.

### Long-Term Expected Rate of Return

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2019 information for a 10 year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2017.

<u>Asset Class</u>	<u>Benchmark</u>	<u>Target Allocation (a)</u>	<u>Geometric Real Rate of Return (Expected minus Inflation) (b)</u>
US Equities	Dow Jones U.S. Total Stock Market Index	10.50%	5.40%
Private Equity	Cambridge Associates Global Private Equity & Venture Capital Index (c)	18.00%	8.40%
Global Equities	MSCI World (net) Index	2.50%	5.70%
International Equities - Developed	MSCI World Ex USA (net) Index	10.00%	5.40%
International Equities - Emerging	MSCI Emerging Markets (net) Index	7.00%	5.90%
Investment-Grade Bonds	Bloomberg Barclays U.S. Aggregate Bond Index	3.00%	1.60%
Strategic Credit	FTSE High-Yield Cash-Pay Capped Index	12.00%	4.39%
Direct Lending	S&P/LSTA Leveraged Loan Index	11.00%	7.95%
Distressed Debt	Cambridge Associates Distressed Securities Index (d)	2.00%	7.20%
REIT Equities	67% FTSE NAREIT Equity REITs Index + 33% S&P Global REIT (net) Index	2.00%	4.15%
Master Limited Partnerships (MLPs)	Alerian MLP Index	3.00%	5.35%
Private Real Estate Partnerships	Cambridge Associates Real Estate Index (e)	6.00%	6.30%
Hedge Funds	Hedge Fund Research, Inc. (HFRI) Fund of Funds Composite Index	13.00%	3.90%

(a) Target asset allocation adopted at the April 2019 TCDRS Board meeting.

(b) Geometric real rates of return equal the expected return minus the assumed inflation rate of 1.7%, per Cliffwater's 2019 capital market assumptions.

(c) Includes vintage years 2006-present of Quarter Pooled Horizon internal rates of return.

(d) Includes vintage years 2005-present of Quarter Pooled Horizon internal rates of return.

(e) Includes vintage years 2007-present of Quarter Pooled Horizon internal rates of return.

### Discount Rate

The discount rate used to measure the total pension liability was 8.10%. This rate reflects the long-term rate of return funding valuation assumption of 8.00%, plus 0.10% adjustment to be gross of administrative expenses as required by GASB 68. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active, inactive, and retired members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, and the municipal bond rate does not apply.

### **Changes in Net Pension Asset**

Changes in the PUA's net pension asset for the valuation year ended December 31, 2018 are as follows:

	Total Pension Liability	Increase (Decrease) Fiduciary Net Position	Net Pension Liability (Asset)
	(a)	(b)	(a) - (b)
Balance as of December 31, 2017	\$ 333,111	\$ 392,021	\$ (58,910)
Changes for the year:			
Service cost	348,223	-	348,223
Interest on total pension liability (1)	54,891	-	54,891
Effect of plan changes (2)	-	-	-
Effect of economic/demographic gains or losses	(42,524)	-	(42,524)
Effect of assumptions changes or inputs	-	-	-
Refund of contributions	(7,481)	(7,481)	-
Benefit payments	-	-	-
Administrative expenses	-	(616)	616
Member contributions	-	151,080	(151,080)
Net investment income	-	(3,193)	3,193
Employer contributions	-	224,461	(224,461)
Other (3)	-	11,005	(11,005)
Balance as of December 31, 2018	<u>\$ 686,220</u>	<u>\$ 767,277</u>	<u>\$ (81,057)</u>

(1) Reflects the change in the liability due to the time value of money. TCDRS does not charge fees or interest.

(2) No plan changes valued.

(3) Relates to allocation of system-wide items.

## Sensitivity Analysis

The following presents the net pension liability (asset) of the PUA, calculated using the discount rate of 8.10%, as well as what the PUA's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (7.10%) or 1 percentage point higher (9.10%) than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
	7.10%	8.10%	9.10%
Total pension liability	\$ 813,391	\$ 686,220	\$ 582,559
Fiduciary net position	767,277	767,277	767,277
Net pension liability/(asset)	\$ 46,114	\$ (81,057)	\$ (184,718)

## Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources

For the year ended September 30, 2019, the PUA recognized pension expense of \$213,479. As of September 30, 2019, the deferred outflows and inflows of resources are as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 152,447	\$ 39,487
Net difference between projected and actual earnings	44,349	-
Changes of assumptions	-	585
Contributions made subsequent to measurement date	156,597	-
Total	\$ 353,393	\$ 40,072

The \$156,597 reported as deferred outflows of resources related to pensions resulting from PUA contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended September 30, 2020. The remaining amounts currently reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

	Pension Expense Amount
Year ended September 30:	
2020	\$ 18,616
2021	18,615
2022	18,384
2023	17,082
2024	7,087
Thereafter	76,940
	\$ 156,724

## **11. RISK MANAGEMENT**

The PUA is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The PUA has obtained coverage from the Texas Municipal League Intergovernmental Risk Pool (“TML Pool”) to effectively manage its risk. All risk management activities are accounted for in the General Fund. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered.

The TML Pool was established by various political subdivisions in Texas to provide self-insurance for its members and to obtain lower costs for insurance. TML Pool members pay annual contributions to obtain the insurance. Annual contribution rates are determined by the TML Pool board. Rates are estimated to include all claims expected to occur during the policy including claims incurred but not reported. The TML Pool has established claims reserves for each of the types of insurance offered. Although the TML Pool is a self-insured risk pool, members are not contingently liable for claims filed above the amount of the fixed annual contributions. If losses incurred are significantly higher than actuarially estimated, the TML Pool adjusts the contribution rate for subsequent years. Members may receive returns of contributions if actual results are more favorable than estimated.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION YEAR ENDED SEPTEMBER 30, 2019

---

### 1. METHODS AND ASSUMPTIONS USED IN CALCULATIONS OF ACTUARIALLY DETERMINED CONTRIBUTIONS

The following methods and assumptions were used to determine the contributions rates:

Valuation Timing	Actuarially determined contribution rates are calculated as of December 31, two years prior to the end of the fiscal year in which the contributions are reported
Actuarial Cost Method	Individual Entry Age Normal
Amortization method	Level percentage of payroll, closed
Amortization period	0.0 years
Asset Valuation Method	5-year smoothed market
Inflation	2.75%
Salary Increases	Varies by age and service. 4.9% average over career including inflation
Investment Rate of Return	8.10%
Cost-of-Living Adjustments	Cost-of-Living Adjustments for the PUA are not considered to be automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB 68 calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.
Retirement Age	Between ages 40 and 74 with various rates of service retirement by gender: low of 4.5% for age 40-44 to high of 25.0% for age 65-66 for males and females
Turnover	New employees are assumed to replace any terminated members and have similar entry ages.
Mortality:	
Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Table for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service retirees, beneficiaries and non-depositing members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

## **2. CHANGE IN ASSUMPTIONS**

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

## OSI-3 MONTHLY WATER RATES AND IMPACT FEES OF THE PARTICIPANTS SEPTEMBER 30, 2019

---

### Water Impact Fees:

	<u>Bee Cave Rate District</u>	<u>Bee Cave South Rate District</u>	<u>Homestead/ Meadow Fox Rate District</u>	<u>HPR/290 Rate District</u>	<u>Highway 71 Water System Service Area</u>	<u>Highway 290 Water System Service Area</u>
Historical Water Impact Fee	\$ 4,120	\$ 5,180	\$ 4,120	\$ 5,180	N/A	N/A
2012 Water Impact Fee	N/A	N/A	N/A	N/A	\$ 5,992	\$ 8,809
2015 Water Impact Fee	N/A	N/A	N/A	N/A	\$ 7,476	\$ 12,938
September 20, 2018 Water Impact Fee	N/A	N/A	N/A	N/A	\$ 3,776	\$ 6,139

The PUA assesses, collects and reports water and wastewater impact fees by rate districts. In addition, the PUA designs and constructs and accounts for capital improvement projects that provide water and wastewater services to existing/new development and associated system expansions to and within these rate districts.

Additional information about the PUA's tariff can be found on their website at the following address:  
<https://wtcpua.org/rates-and-policies>.
